Read the following passage and choose the appropriate answer possible.

The recent rapid growth of industry has, in some cases, been so excessive that too much manufacturing capacity has been developed in some fields of production, which forces companies to sell their surplus products in world markets at prices lower than normal. This will make it almost impossible to develop local industries producing the same items because consumers will prefer to buy the cheaper imported product.

✓ Imported product as used in the last product refers to ... *

1/1

- ☐ (A) surplus product manufactured by foreign country and sold at a normal price
- ☒ (B) product of a foreign country available at a below normal price ✓
- ☐ (C) product sold to such other country which can't locally manufacture it
- ☐ (D) product manufactured locally but of export quality

✗ According to the passage, the situation resulting from the rapid industrial growth is ... *0/1

- ☐ (A) conducive to the growth of local industries
- ☒ (B) disastrous to the exporters ✗
- ☐ (C) favourable to the manufactures
- ☐ (D) none of these

Correct answer

- ☒ (D) none of these
